Three-bar Plant Hanging System

Hanging basket planters are a profitable addition to any livegoods selling mix. Our Three-bar Plant Hanging System lets you cross merchandise up to nine planters per section. Order one section for a three-foot-wide display, two for a 5.5-foot display, or three for each eight-foot display. Simply slide them in place on your new fixtures, no tools required!

The Three-bar Plant Hanging system is compatible with the following fixtures:

All 5-level Pyramids

All 3-step Wall Displays

All 4-step Wall Displays

Round Plant Hanging System

The Round Plant Hanging System is the ideal addition to either of our Three-tiered Round displays. Standing 81 inches above the ground -- a full 36 inches above the top level of the display -- this accessory really tops them all! Baskets hang from a powder-coated steel grid for maximum versatility. When fully merchandised, this system creates one of our most impressive displays.

The Round Plant Hanging system is compatible with the following fixtures:

BR484503T

BR604503T

Accessories

Caster Bars

Everyone and everything seems to be on the move these days and garden center fixtures are no exception. Now you can add our heavy-duty powder-coated steel caster bar system to most of our displays and put your whole world in motion. Each eight-foot display requires four caster bars. 66-inch displays require three and 36-inch units only need two. Just tip back your fixture and slide them into place. It's really that easy!

Caster Bars are compatible with the following fixtures:

All Pyramids

All Wall Displays
(except Octagon Wall)

All Aisle Merchandisers
(except 16" deep)

Sign Kit

NEW!

Our Sign Kit comes with everything you need to add signage to your displays. No tools are required! Just clip Sign Kits to any legs on the display, insert your own 7" x 11" graphic and, viola! You've got a custom signage solution. Order as many as you want, we'll make more!
