Plant Hanger Plus™ Island

The Plant Hanger Plus™ Pyramid Island will forever change the way you view merchandising, inside or out. The new super-strong, high-capacity integrated three-bar overhead structure provides ample capacity for your even your largest hanging merchandise needs. Combined with one of our three uniquely suited five-level pyramids and tiered endcaps, this fixture makes your product pop, plain and simple.

Focal Point Displays

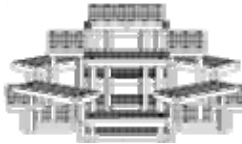

Octagon

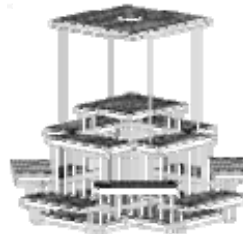

Our Octagon display will blow you away with a total of 13 separate 16" x 36" selling levels surrounding a central octagonal footprint. This creates the ultimate cross-merchandising centerpiece for your retail garden center. The optional overhead canopy or kiosk-style mini shade structure creates an island of merchandise that customers can't resist!

Focal Point Displays

Wave

Use our Wave to create a live-goods display that's equal parts fun and function. Alternating shelves break up straight lines to slow down shoppers' eyes and help you move more product. With 28 square feet of unobstructed display shelving and more than 20 square feet of overstock space, this focal-point fixture fits on virtually any floorplan.

Height: 36"

Pyramid Island

Our Pyramid Island was designed for retailers who want to maximize the versatility of their display investment. Three independent components come together to form a coordinated island display. When you're ready to change things up, move one or both of the endcaps to your POS area or any other part of your garden center and leave the pyramid intact. Resets just don't get any easier.

Focal Point Displays

Hexagon

Stop hiding from your building's columnar support posts and start using them to your advantage. The Stepmaster Hexagon turns wasted space into a shop-around oasis of merchandise. Poles not your problem? With nine 16" by 36" selling levels, this display is equally impressive as a stand-alone.

Width: 84"
Height: 36"

Use the Hexagon to surround square or round poles up to 20" x 20"

Pagoda/Bonsai

Capture the style of the Orient with our specially-designed bonsai merchandising system. Seven shelf panels come together in this impressive display to create a look and style that goes naturally with bonsai. Cross merchandising is a snap on this unique and incredibly versatile fixture. Standing an impressive 6' 4" high, customers will be sure to notice the extra effort you put in with higher-end products.

Focal Point Displays

Spiral

Architects put spiral staircases in their designs as a tool of efficiency and a means to add beauty and grace. Now you can do the same with your live-goods merchandising. The Spiral consists of four half-moon 36" panels arranged in steps leading products from the floor to your customers' hands. Use Spirals whenever you can make an impulse sale: endcaps, mid-aisle displays and POS centers of your retail space.
