

# Multi-Level Displays

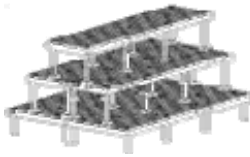

## Three-level Pyramid

Versatility and modular components are what it's all about with this configuration. Legs lock in place directly to the panel surfaces using a series of collars that can be moved and adjusted as your needs change. Shipped complete and ready to assemble, this display provides more than 80 square feet of merchandising space.

# Multi-Level Displays

## Two-level

This is the plant-friendly display that can do virtually anything. At 36 inches high, the tops are positioned perfectly for larger, bulky merchandise such as larger potted plants and small trees. Or, use them as a low-level seasonal theme display that your customers can look over but can't overlook.
