

Fertilizer

Mega Green Organic Fish Fertilizer

Mega Green is a superior organic fish fertilizer, uniquely processed (hydrolyzed) using low temperature, thereby preserving the valuable nutrients needed for optimum plant and turf health. It provides ALL the great benefits of fish fertilizers as we know them, while preserving nutrients. Mega Green is quickly absorbed, feeding the whole plant, while creating a healthy soil environment. We promise you outstanding results and long lasting benefits. Mega Green provides the 3 primary plant nutrients: Nitrogen, Phosphorus and Potash with so much more...

- No strong fishy odor with a hint of mint added
- Safe to use, will not stripe or burn
- 100% fish protein broken down into usable, quickly absorbable nutrients plus all important amino acids, peptides, and enzymes
- Cold process preserves nutrients
- 17 short chain amino acids totaling 13% of content and micro nutrients
- No chlorine or heavy metals; no manure, and certified pathogen free
- Efficient for use with spray or drip irrigation systems (200 mesh screens)
- Formulated for both foliar and root zone applications
- Improves soil micro climate and biodiversity, creating a healthy, fertile root zone environment, dormant bacteria bacillus activates upon application
- Sustainable and environmentally friendly from source to disposal
- OMRI listed 100% organic fertilizer

2-3-1 32oz hose end sprayer, 64 oz, 2.5gl, 55gl, 330gl tote, Tanker.

Coming soon

2-3-1 plus** 0.25% Humic Acid derived from Menefee Humate

2-2-2 plus** 0.25% Humic Acid derived from Menefee Humate

2-5-3 plus** 0.25% Humic Acid derived from Menefee Humate
Available in 2.5gl/2per case, 55gl, 330gl tote,

Multi Bloom Organic Fish Fertilizer

This is the same product as the Mega Green packaged for retail sales.

2-3-1 32oz hose end sprayer

Fertilizer

Soyaplex-sp Organic Fertilizer and Microbial Stimulant

SOYAPLEX-sp is an all-natural soybean based fertilizer, soil amendment, and plant growth stimulator that allows plants to feed the way nature intended, producing vigorous plants with sustained growth. It is uniquely processed from 100% non-GMO or organically grown "whole" soybeans, with only the fibrous hulls naturally removed. This highly concentrated powdered carbohydrate-protein mixes instantly with water and agitation for worry-free easy spraying. University studies have shown SOYAPLEX™ is the ideal choice for use on home lawns, golf courses, commercial landscapes, parks, and sports fields.

- Safe to use, will not stripe or burn
- No noxious odor and will not stain walkways, driveways, or cart paths
- Unique process preserves valuable nutrients
- 13 short chain amino acids totaling 43% of content
- Provides plants with nitrogen, phosphorus, potassium, calcium, iron, magnesium, copper, manganese, molybdenum, and zinc in an all-natural powder form that is easily sprayed.
- In addition to the minerals, SOYAPLEX-sp has numerous vitamins, folic acid, thiamine, biotin, and riboflavin
- Improves soil micro climate and biodiversity, creating a healthy, fertile root zone environment
- Programmed applications will not only improve the soil environment, plant health, growth, and vigor, but will decrease pathogenic activities resulting in less disease and the need for chemical controls
- Safe for family, pets, and waterways
- ASCO approved for organic crop production. OMRI listing in process

8-1-2*** 44lb.

Soyaplex-g Organic Fertilizer and Microbial Stimulant

A 2mm granular form of Soyaplex for dry application. Coming in June 2009.

8-1-2*** 44lb.

***Pending Oregon licensing and OMRI listing. Approved for CA and WA*

**** Pending Oregon licensing and OMRI listing*

Soil Amendments

ThermX-70 Natural surfactant – wetting agent

ThermX-70 is a concentrated plant extract containing steroid saponin. This natural compound is found in certain desert plants like Yucca. Steroid saponin helps these plants overcome the adverse growing conditions of the desert. When placed in the root zone, ThermX-70 helps crop plants in much the same manner. Water and nutrients are wasted if they aren't used by the plants. The root systems are often denied the water and nutrients needed because of soil compaction, poor water penetration and subbing, and by the action of excess salinity and alkali. ThermX-70 relieves these stresses, increasing crop yields.

ACTION ON SOILS: Steroid saponin is a natural wetting agent that reduces surface tension. This action enhances better;

- Water penetration into the soil
- Subbing of beds
- Drainage of excess water from the root zone

ACTION ON PLANTS: Under stress conditions steroid saponin increases the plant's ability to utilize water more efficiently, resulting in;

- Improved seed germination and stand establishment
- Increased water uptake
- Improved fertilizer uptake

ThermX-70 is inexpensive and easy to use.

Available in; Quarts, 1 gallon , 2.5 gallons, 55 gallon.

Pesticides

RID-BUGS Organic Insecticide

THIS IS A NATURAL-SAFE, ORGANIC OIL SPRAY THAT IS EFFECTIVE ON A WIDE VARIETY OF INSECTS, MITES, ARMORED AND SOFT SCALES, SOFT BODIED INSECTS, AND CERTAIN FUNGAL DISEASES FOR USE ON MOST GREENHOUSE CROPS, FRUIT TREES, FLOWERS, HERBS, SPICES, ORNAMENTALS, VINES, AND VEGETABLES.

Effective on eggs, larva, and nymphs of insects as well as adult soft bodied insects. Controls a wide range of mite and insect pests such as (but not limited to) citrus rust mites, spider mites, two spotted mites, armored and soft scales, mealy bugs, whiteflies, aphids, leaf rollers, leaf miner, fungus gnats and thrips.

RID-BUGS ORGANIC INSECTICIDE controls certain fungal diseases such as (but not limited to) powdery mildew, black spot on roses, helminthosporium and greasy spot on citrus.

Available in; Quarts, 1 gallon , 2.5 gallons, 55 gallons
